

JWOC Laos Update

In April we were able to celebrate the graduation of Miss Kim's class, our first Young Learner class to successfully complete an entire level within the curriculum we transferred from JWOC classes in Cambodia.

Our new reading and drawing class offers children the opportunity to engage in games, explore all the levels of reading materials & express themselves artistically through activities such as drawing & painting.

We have implemented the same training workshops for scholarship students that had been developed by JWOC Cambodia. The scholarship students all received training on JWOC's mission and background, introduction to teaching and practical teaching methods and exercises.

**THANK YOU
FOR MAKING
ALL OF THIS
POSSIBLE!**

JWOC provided two new sets of uniforms and a pair of shoes for each of the students at Phik Noy Primary School for the 2009-2010 school year.

In February, the scholarship students were able to have some fun with our first team outing. We set out for Kuang Si Waterfall to enjoy a lunch and a swim at the falls. These outings are designed for them to get to know each other and have fun as a JWOC team!

Four students are now able to attend their 5th level at the neighboring primary school, 3km away and all the students were eager to take the new bikes for a spin after they were presented to the village by JWOC.
